UIL ACCOUNTING
2026 Invitational-A Test

Do not turn this page until the start signal is given!

All answers MUST be written on your answer sheet.

No other test materials are graded or reviewed by the graders.

Upper- or lower-case letters are acceptable. Write legibly. All answers must be clearly written, or they will be counted wrong. Write letters far enough above the line so that (for example) an “E” is distinguishable from an “F”. If using T or F for true-false questions, make sure that your answer is clearly discernible.

Carefully read the instructions for each group of questions. Pay particular attention to instructions regarding: 1) the format of answers; 2) rounding; and 3) answers with brackets or parentheses.

You may remove the pages from the staple for convenience; only the answer sheet is considered by the graders.

Acceptable Responses Section

Debit/Credit questions:				True/False questions:				Yes/No questions:				for Zero
Debit	DR	debit	dr	True	T	true		Yes	Y	yes		0 Ø -0-
Credit	CR	credit	cr	False	F	false		No	N	no		zero

If an answer has zero cents, it is not necessary to write the decimal or the zeroes for cents. However, any dollar amount with cents must have TWO decimal places.

A required decimal point must be clearly visible and in the correct position.

Round dollar amounts to the nearest cent.

Including commas in an amount where appropriate is encouraged, but it is optional. Failure to use commas will not make your answer wrong; however, marking a comma in the wrong position will cause your answer to be marked incorrect.
